Fire Insurance Emphasizing Both Quality and Quantity • Striving for Breakthroughs

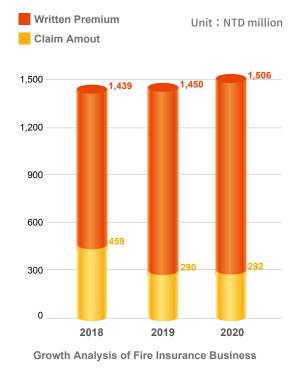

During 2020, the overall fire insurance market appeared a substantial growth due to the change of the insurance periods for specific large-scale commercial fire cases. With a relatively low share, we benefited from this only to a limited extent. In the aspect of underwriting performance, under the continuous control of business quality and the requirement of risk diversification this year, our overall gross combined ratio was still comparable to last year's performance despite some cases of large-scale fire losses, stably contributing to the Company's underwriting profitability.

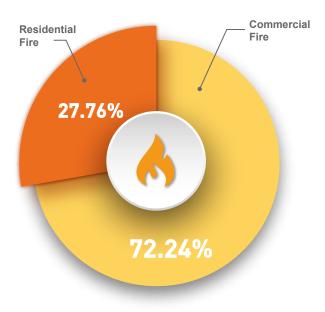

For 2021, the Company's fire insurance business will uphold four major goals of achieving performance, ensuring profits, improving professionalism, and digital development as the main operating principles so as to strive for market share increase under the premise of ensuring our underwriting profits. First in the practice, we will continue to implement the risk assessment operations, strictly control the quality of risks, and demand risk diversification and reasonable consideration for high-risk businesses. Meanwhile, we will also focus on the business of largescale quality targets, striving for new cases to increase market share; and for expanding the underwriting profit base, we will make good use of the Financial Holdings' and Six government-owned banks resources, and deepen the relationship with the customers of small- and medium-sized commercial fire business to develop business opportunities.

Marine Insurance Steady and Pragmatic • Heading for the Blue Ocean

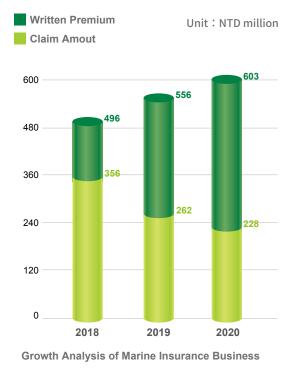

The Company's written premiums for marine insurance totaled NTD 603 million in 2020. After experiencing several adverse factors in the previous year such as the spread of COVID-19 epidemic worldwide and the sudden freezing of trades, which made the economic trend chaotically unclear, the global economic prospects in 2021 are expected to gradually get better with the effectiveness of vaccination plans and the successive practice of lifting lockdowns in the major economic powers of the world such as the EU and USA. The marine insurance department of the Company will still devote itself to the provision of professional service, deepen the Group's business with the combined resources of the entire Hua Nan Financial Holdings, carefully select external insurance agency channels to expand our business scale, and promote electronic insurance policies in response to the development trend of digital technology. Maintaining the service spirit of being "steady and pragmatic," we will continue to target new customer groups and actively develop quality business in line with the rising trend of economic climate and the growth of import and export trades to seek for the growth of underwriting profits.

Product Development

Diversified Products · Steady and Sound Channels

To cope with the intensifying market competition, the Company continued to take product innovation and channel expansion as its major strategies in 2020:

(1) Innovation of Composite and Customized Products:

A great number of new products were developed in 2020, including South China Green Energy/Eco-Friendly Automobile Insurance, Additional Insurance of Autonomous (Auxiliary) Vehicle Testing Attached to South China Automobile Insurance, South China Papaya Typhoon Wind Speed and Rainfall Index Insurance (applying to the areas of Nantou, Yunlin and Chiayi), South China Insolation Index Insurance etc. We use diversified products to strengthen our competitiveness, and also put it together with the application of financial technology to bring product innovation and service improvement to a higher level.

(2) Channel Development and Business Expansion

We continued to develop new channels and increase the proportion of the channel business; in addition, we will, in coordination with Financial Holdings' resources, strengthen the promotion of business in government shareholding banks and deepen the channel service so as to drive our business growth.

Reinsurance

Seizing Opportunities to Take Action · Seeking Stability within Risks

Climate change has changed the pattern of natural disasters. For example, wildfires in Australia continued to burn for seven months in 2019, and wildfires in California continued to burn for one and a half months in 2020, which broke the historical record of the United States again. Asian regions such as Kyushu in Japan, the Yangtze River Basin in Mainland China, Jakarta, and the Philippines were severely hit by heavy rains or typhoons. Besides, the COVID-19 pandemic seriously affected global economic activities. Trade barriers and huge operation loss derived from this have jointly dragged down the already severe international reinsurance market. The global market conditions simultaneously appeared an instant price raising and qualification restrictions. Although there were no major natural disasters or epidemic losses in Taiwan, it is impossible to completely stay out of the situation. We still need to break through multiple difficulties to complete the reinsurance arrangement which can effectively assist the sound growth of business. Our Offshore Insurance Units have gradually adjusted business structure and regional layout so that the operations are still stable despite the impact from global disasters. We will continue to uphold the strategy of being cautious and not rushing forward in order to increase profits and recreate new prospects.

Risk Management

Risk Control · Effectiveness Enhancement

In order to reinforce the operation of the mechanism and organization of risk management, the Company continues, through the board-level Risk Management Committee and the president's Meeting of Risk Management & Asset Liability Management, to establish the risk management mechanism and culture of top-down supervision and bottom-up implementation so as to assure various operations of risk management to be fully aligned with the Company's business goals and policies. Furthermore, we adopt the three elements of "integration," "refinement" and "transparency" as the DNA of the Company's risk management culture. By this, we establish the control models of "ordinary incident management," "emergency incident management" and "risk performance management" so as to effectively monitor and implement various risk management affairs.

We also construct a cooperative platform consisting of auditing, compliance and risk management units, apply data science, strengthen the defensive line (in broad sense) of risk management, and elaborate on various measures of economic capital and key indicators of risk control for all business in order to gradually improve the efficacy of risk management and corporate governance.

Cross Selling

Marketing Integration · Repeating Great Performance

Since joining Hua Nan Financial Holdings in 2003, the Company has successively set up cross-selling and insurance service counters in 235 units of the Group (including Hua Nan Bank, Hua Nan Securities and Hua Nan Futures), intensifying the service for customers and effectively promoting the business performance by means of the Group's three major resources of abundant products, channels and customers.

For strengthening and maintaining the momentum of joint marketing, the Company, to meet customer needs as the starting point, combines the products between the Company and the Group each year, and plans marketing activities for composite commodities regularly, so as to enhance cross-selling performance and strengthen adhesiveness of customers.

Moreover, under the parent company's integration, the marketing resources of the Group have been integrated by means of cross-subsidiary "integrated marketing team by corporate finance." We also establish the tracking and management mechanism for referral cases within the Group. In addition, under the gradual establishment of the Group employees' cross-selling consciousness, their willingness to sell together has also been strengthened.

In anticipation of the future, apart from regular marketing activities for composite commodities and CRM marketing campaigns towards existing customers for increasing average product amounts of customers, we will develop new project products and put them in the Group's channels for sale, so as to improve customer service, stimulate the growth of cross-selling insurance business, and further enhance the Company's comprehensive performance of operation.

商品開發 多樣商品 穩健通路

產險業市場競爭日益嚴峻,109年持續以創新商品及開發新通路業務為重要主軸:

一、創新商品及新的客製化組合商品:

開發華南產物綠能環保汽車保險、華南產物汽車保險附加自動(輔助)車輛測試保險、華南產物風速及降雨量參數木瓜保險(南投、雲林、嘉義地區適用)、華南產物日照量參數保險,多元商品強化競爭力,再結合金融科技應用,讓商品創新與服務的精進更上一層樓。

二、開發新通路及擴展通路業務比重:

持續開發新通路及提高通路業務占比,另配合金控資源加強推展公股行庫業務,深化通路服務,以帶動業務成長。

再保險 伺機而動 險中求穩

氣候變遷改變天然災害模式,2019年澳洲野火延燒7個月,2020年加州野火再度破美國歷史紀錄,延燒1個半月,亞洲地區如日本九州、大陸長江流域、雅加達、菲律賓則受暴雨或颱風侵襲。加之,新冠肺炎嚴重影響全球經濟活動,衍生貿易障礙與鉅額營運損失,連帶拖累已然嚴峻的國際再保市場。全球市場條件同步應聲調漲、限縮條件,國內雖未有重大天災或疫情損失,亦無法置身事外,需突破重重困境始能完成輔佐業務健全成長的再保險安排。國際保險業務分公司近年逐步調整業務結構及區域布局,雖受全球災情波及,但營運尚屬穩健。將繼續秉持謹慎不躁進策略方針,以提升獲利,續創新局。

風險管理 控管風險 提升效益

為提升風險管理機制與組織之運作,本公司透過董事會層級之風險管理委員會及總經理層級之風險管理暨 資產負債管理會議之召開,持續由上而下監督及由下而上落實風險管理機制及風險管理文化,以確保各項風險 管理作業與本公司經營目標及策略相符。並以「整合」、「精緻」及「透明」3 大元素作為本公司風險管理文 化之 DNA,並依此建立「日常事件管理」、「突發事件管理」及「風險績效管理」控管模式,以有效監控及 落實推動各項風險管理事務。

另建構稽核、風管、法遵單位合作平台及運用資料科學,強化廣義風險管理防線、發展各業務經濟資本衡量方法及滾動式檢討關鍵風險控管指標等機制,以逐步提升風險管理及公司治理效益。
